

CBP GROUT, CONCRETE & MASONRY SEALER

- For grout, concrete, masonry and unglazed tile
- Easy to apply with a sponge, roller or pump sprayer

PRICE

PRODUCT DESCRIPTION

CBP Grout, Concrete & Masonry Sealer is a clear, invisible sealer that provides protection for grout, concrete or masonry. Economical, easy-to-apply, general-use sealer that resists efflorescence on grout and concrete block walls. Penetrating sealer that resists most common oil and water-based stains. Will not leave a residue. Low odor, water-based formula. Use interior or exterior.

USES

Seals grout, concrete, brick, block, saltillo, terra-cotta, quarry, masonry and natural stone. Interior and exterior use.

SURFACE PREPARATION

Surface should be clean, dry and free of waxes, coatings or finishes. Use TileLab® Heavy-Duty Cleaner & Stripper to clean the surface and remove wax or acrylic finishes. Will not change the appearance of most surfaces. Test in a hidden area to ensure desirable results.

APPLICATION

Apply liberally using a new mop, lambswool applicator, sponge or brush. Allow to penetrate for 10 - 15 minutes. Wipe off any excess. If first coat has been absorbed, apply a second coat following the same procedure. Very porous surfaces may require additional applications. Conduct a test to see if surface is completely sealed after 2 hours by applying drops of water on the surface. If it penetrates immediately, apply an additional coat. If a residue is visible on the surface after drying, remove it with water and a sponge or white polishing pad 60 minutes after application.

DRYING TIME

2 - 3 hours.

COVERAGE

- On Polished or Dense Surfaces:**
800 - 1200 sq. ft. per gallon (74 - 108 sq. m per 3.78 L).
- On Porous Surfaces:**
200 - 400 sq. ft. per gallon (18 - 36 sq. m per 3.78 L).

CLEAN-UP

Clean tools and hands with soap and water immediately after use.

SAFETY

KEEP OUT OF REACH OF CHILDREN. May be harmful if swallowed. Do not induce vomiting. Give plenty of water and call a physician immediately. If eye contact occurs, flush immediately with plenty of water for 15 minutes. If contact with sensitive skin occurs, wash with soap and water. Call physician if necessary. Do not mix with other solutions.
