

# simplegrout™

## PRE-MIXED GROUT

- Ready to use — no mixing
- Highly stain resistant
- No shrinking
- Ideal for grout restoration

PRICE

### PRODUCT DESCRIPTION

Pre-Mixed Grout is the no mix, no mess alternative to traditional grout. This shrink and crack resistant formula is also highly resistant to most common household stains. Ideal for grout restoration.

### USES

- For interior use only
- Grouts ceramic, mosaic, quarry, porcelain, stone tile, marble and granite
- Suitable for wet areas such as tub surrounds and shower walls

### LIMITATIONS

- Porous stone can be stained by grout; follow directions in Surface Preparation.
- Do not use in steam rooms, shower floors, areas exposed to prolonged water exposure or underwater.

### SURFACE PREPARATION

Tile must be firmly attached and adhesive cured 24 to 48 hours prior to grouting. Remove spacers and any loose materials from joints. Pre-sealing porous tile or stone with an appropriate TileLab® or StoneSpecific® sealer may be necessary to prevent grout staining. Surfaces and materials should be maintained at a temperature above 50° F (10° C) or below 100° F (38° C) for 72 hours.

### APPLICATION

Lightly dampen absorptive, porous tile with clean, cool water. Holding a rubber grout float at a 45° angle, force grout diagonally into joints ensuring joints are completely filled. Remove excess grout using edge of float held at a 90° angle. Work on an area about 5 to 10 square feet at a time. Shaping joints and clean-up must begin immediately using a damp, small pore, grout sponge in a circular motion. Use clean water and sponge, changing water frequently. Wait 4 hours before

removing haze from tile surface with a soft, dry cloth. If a haze still exists after 24 hours, remove it with TileLab Grout & Tile Cleaner. Do not grout when temperature is below 50° F (10° C).

### Rejuvenating Old Grout:

Clean old grout joints thoroughly with TileLab Grout & Tile Cleaner or Heavy-Duty Cleaner & Stripper. Allow to dry overnight. Apply new grout on top of old grout according to application instructions. Allow it to dry for 2 hours and then remove any haze remaining on the surface with a soft, dry cloth.

### DRYING TIME

24 hours.

### CLEAN-UP

Clean tools and hands with water before material dries.

### CARE AND MAINTENANCE

Keep grout clean with an appropriate TileLab or StoneSpecific cleaner.

### SAFETY

Contains Petroleum Distillates. If ingested, do not induce vomiting. Call a physician immediately. Use with adequate ventilation. Non-flammable.

KEEP OUT OF REACH OF CHILDREN.

DO NOT TAKE INTERNALLY. KEEP FROM FREEZING.

### LIMITED WARRANTY

Custom Building Products ("Custom") warrants to the original consumer purchaser that its product shall be free from defects in material and workmanship under normal and proper usage for a period of one year following the date of original purchase. Custom's sole liability under this warranty shall be limited to the replacement of the product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty will not extend to any product which has been modified in any way or which has not been used in accordance with Custom's printed instructions. Custom makes no other warranties either express or implied. This warranty gives you specific legal rights, and you may have other rights that vary from state to state.
